ABOUT ME

Experienced and versatile web developer and designer with over 8 years of full-time freelance experience. Specialize in WordPress, with deep expertise in the Divi theme and Elementor page builder, including the creation of custom elements such as sliders, tabs, CTAs, and pop-ups. Skilled in Figma, Canva, and social media, offering a well-rounded approach to digital projects. Self-taught through extensive online learning and committed to delivering high-quality, tailored solutions to every client.

EXPERIENCE

2016 - 2019

Fiverr and other
freelance platform

Front-end developer (Freelance)

Began my freelance career on Fiverr, offering PSD to HTML conversions and front-end web development services, delivering clean, responsive, and well-structured code for various client projects.

2021 - Now

EverConvert - USA

WordPress Developer (Freelance)

Provide white-labeled WordPress development services on a project basis for this web agency. Responsibilities include designing and building custom pages using the Elementor page builder, as well as implementing custom JavaScript and CSS when needed. Additionally, I handle multilingual site setups using the WPML plugin, including adding and managing translations.

2022 - Now
